

# The Coaching Program

*Private Lesson Program (6 Lessons)*

## The Program - \$1600

Our Coaching Program is a personalized, hands-on training option designed to help you become your dog's best teacher. Over 6 private lessons, you'll work one-on-one with Blayke to address the behaviors that matter most to you—from basic obedience to improving manners and building reliable off-leash skills.

This program is ideal for owners who want expert guidance while staying actively involved in their dog's training. Together, we create a customized plan tailored to your dog and your lifestyle, focused on long-term results at home and in real-world situations.

You will have 90 days to complete your Private Lesson Program. It is recommended that lessons are completed weekly or biweekly. Dogs of all ages can complete Private Lessons including puppies as young as 10 weeks old.
